

Terms Of Service

Welcome to Rapidify, a digital service hosted as a private Discord server. To access our services, you must have a free Discord account, and by creating one, you agree to adhere to Discord's terms and Community Guidelines.

Upon successful acceptance of Rapidify membership, including Rapidify, Rapidify Free, Food Lab, and Freebify, you'll receive a license key. Use this key to activate your account and access paid services or features. Be cautious during activation, as accidental activations are not our responsibility.

Membership is billed automatically every 30 days from the purchase date, unless you, the user, directly cancel before the renewal date. You can cancel anytime through the dashboard which is hosted via Whop (<https://whop.com/orders/products/> & <https://whop.com/rapidify/>). No pro-rata refunds for upfront purchases will be issued if Rapidify closes involuntarily. Pro-rata refunds will be issued if Rapidify closes on its own terms.

Human errors leading to non-cancelled subscriptions will not be refunded. Ensure your payment information is up-to-date to avoid service interruptions. Failed payments are retried within 24 hours, and during this period, your Rapidify service may be paused. Billing queries can be emailed to admin@rapidify.co.uk. Cancelling requires clicking the cancellation button on either the Portal Dashboard or the backup User Dashboard to create an event on Stripe, our payment processor.

Rapidify collaborates with third-party markets to prevent unauthorised sales of Rapidify memberships.

In case of Discord account issues (termination, ban, revocation, loss, or leaving the server), contact admin@rapidify.co.uk for assistance. No refunds for such situations; the responsibility lies with the user.

Free trials are occasionally offered. If claimed, automatic charges apply after the trial period unless cancelled before renewal. Refund policy applies to trial memberships not cancelled before renewal. Previous trial claimants are ineligible for another trial.

Information collected during checkout is used for legitimacy verification by Stripe. Rapidify Ltd may terminate memberships without refund.

While we believe our services are risk-free, it depends on retailers' return policies. Users should be cautious, especially when reselling items. Rapidify is not liable for financial distress caused by alerts or calls. EU/UK users have legal aids protecting them.
